SUMMARY

Motivated second-year Computer Science student at Universidade de Aveiro, looking for his first foray into the world of software development, particularly through an internship. Skilled in Python with experience in web-scraping and API usage.

EDUCATION

BS of Computer Science, Universidade de Aveiro, Aveiro, Portugal

October 2021 – (Estimated) July 2024

Extra Courses

Applied Communication Skills | Marketing, Universidade de Aveiro

Financial Investments | Finance, Universidade de Aveiro

PROJECTS

MIRROR-UP | PYTHON, HTTPX, TRIO

<https://github.com/Mycsina/mirror-up>

Intuitive CLI Python file uploader for MirrorAce.com. It can upload folders and files of any size by splitting them into multiple .zip files and then uploading them using MirrorAce's API.

GG-SCRAPE | PYTHON, REQUESTS, BEAUTIFULSOUP4, GIT

<https://github.com/teauxfu/gg-scrape>

Python CLI app that provides a League of Legends champion build by scraping relevant websites. In this project I used git to contribute to a stranger's package, having forked his code and merged useful code changes that solved issues.

WORK

SALESMAN | Licor Lamego (Aug-Sept 2022)

- Sold bottles of liquor, shots and handed out samples of the product to customers.
- Engaged with potential customers in order to persuade them to try the store's products and eventually buy them.
- Did the inventory count and daily billing count for the stand.
- Directed a team of 3, lubricating the employer-employee relationship.

DATA COLLECTION INTERN | Exatronic (Aug 2022)

- Worked as a data collector, providing high accuracy data for the company.
- Ensured that the company's equipment was well mounted and providing accurate measurements.
